RANSKILL AND TORWORTH JOINT BURIAL COMMITTEE

We do understand that leaving a range of items such as glass vases, soft toys and plastic memorabilia at the grave is important to relatives and visitors.

Unfortunately, in order to make the cemetery a special, safe and respectful place for everyone we have to keep up to date with maintenance and safety.

It is important that memorabilia, especially made of glass or plastic is liable to be a risk to visitors and may not be placed on any grave within the cemetery.

Small potted plants and wreaths are acceptable and kept on the memorial base. Cut flowers should be kept in a vase in or on the memorial base.

To ensure the cemetery is always tidy The Joint Burial Committee may remove any such items placed at any time and without prior notice.

All dead flowers and other litter must be placed in the receptacles provided for that purpose. The Joint Burial Committee reserves the right to remove dead flowers and wreaths if left on any grave for an unduly long period of time.

We rely on your cooperation to keep the cemetery as a place of peace and reverent care for all families.
